

Znode v9.3.2.16 Breaking Changes		
Project Name	File and Method Name	Breaking Changes
Znode.Engine.Services	File Name: ShoppingCartService Method Name: RemoveSavedCartItem	In the method RemoveSavedCartItem new SP "Znode_DeleteSaveCartItem" has been called to manage all the records from SP and to avoid the deadlock like situation.
Znode.Engine.Services	File Name: ClearCacheHelper Method Name: GetActiveDomain	Earlier, only production cache was getting cleared using the method GetActiveDomain but now it will also clear preview cache.
